ABOUT SQUAREML

SquareML is a no-code machine learning platform designed to empower healthcare professionals to harness the power of advanced analytics without needing to write code. The platform offers a user-friendly interface and a range of tools that allow healthcare organizations to build, deploy, and manage machine learning models with ease.

PARTNERSHIP HIGHLIGHTS

SquareML is excited to announce strategic partnerships with Google for Startups and Microsoft's Founder's Hub. These collaborations aim to support healthcare innovation and accelerate the development of SquareML's no-code machine learning platform.

Improve Medication Adherence with SquareML Analytics

How can SquareML Medication Compliance Analysis (SQML MCA) tool help?

Provides crucial value-based care metrics, including adherence dashboard for diabetes, hypertension, statin and HIV. This will enable gap closure, resulting in improved patient outcomes and reducing total cost of care improving quality ratings which can result in better reimbursement and bonus from CMS.

Get Started Today: To learn more about how SquareML can help you improve medication adherence, visit our [website](#) or reach out to our team for more information.

Optimize Your IVF Program with Predictive Analytics

SquareML's advanced analytics offer valuable insights for enhancing the efficiency and success of your In Vitro Fertilization (IVF) program. Utilize data-driven approaches to improve patient outcomes and streamline operations.

Visit our [website](#) to learn how SquareML's no-code machine learning platform can enhance your IVF program.

SquareML 340B Analytics

SquareML's advanced analytics provide significant savings and effective management of the 340B Drug Pricing Program. Enhance your program's performance with our data-driven approach.

- **Data-Driven Insights:** SquareML helps you analyze your 340B data in-depth to identify trends, track performance, and uncover opportunities for improvement.
- **Maximize Savings:** Analyze data to pinpoint areas where you can enhance savings and efficiency, allowing you to redirect resources to patient care.

Learn More: Explore how SquareML's no-code machine learning platform can support your 340B program by visiting our [website](#).

How It Works:

1. **Connect Your Data:** Integrate your data with our platform for seamless analysis.
2. **Generate Insights:** Leverage pre-built models and dashboards to visualize your data and gain actionable insights.
3. **Take Action:** Use the insights to make data-driven decisions that optimize your programs.
